PROFESSIONAL SUMMARY

Final-year B.E. Electronics and Telecommunication Engineering student with a Diploma in Computer Engineering and practical experience in Python, Java, SQL, Flask, and PostgreSQL. Developed web applications, database-driven projects, REST API integrations, and machine learning projects. Completed internships in Machine Learning/AI and Cloud Computing, with knowledge of data processing, backend development, and database management. Seeking an entry-level Software Developer or Python Developer role to apply technical skills and contribute to real-world projects.

TECHNICAL SKILLS

Programming: Python, Java, SQL
Web Development: Flask, HTML, CSS, Bootstrap
Database: PostgreSQL, MySQL
Machine Learning: Pandas, NumPy, Scikit-learn, Basic ML Concepts
API & Testing: REST APIs, JSON, API Integration, Postman

PROJECTS

Job Portal Web Application | Flask, PostgreSQL, Bootstrap, REST API, Postman
- Developed a role-based job portal with separate workflows for Job Seekers and Employers using Flask and PostgreSQL.
- Implemented user registration, login, session-based authentication, job posting, job search, job applications, and application management.
- Designed PostgreSQL tables and database operations for users, jobs, and applications.
- Integrated the Adzuna REST API to fetch external job listings and process JSON responses in the Flask application.
- Used Postman to test API requests, parameters, HTTP status codes, and JSON responses before integration.

AgriTech Smart Farming Platform | Python, Streamlit, Machine Learning
- Developed a Streamlit-based platform to support farmers with crop selection, crop-related analysis, and plant disease identification.
- Applied Random Forest, SVM, Linear Regression, and Naive Bayes for different machine learning tasks.
- Used CNN/ResNet50-based image analysis for plant disease classification.

Tour and Travel Management System | Java, MySQL
- Developed a Java application to manage customer bookings, travel packages, and payment details.
- Implemented user authentication, booking records, and MySQL database connectivity.

INTERNSHIPS

Shell India Pvt. Ltd. — Machine Learning / AI Intern | Dec 2025 – Feb 2026 | Pune, Maharashtra
- Gained practical exposure to Python, data preprocessing, data analysis, machine learning concepts, model development, and evaluation.
- Worked with datasets to understand data cleaning, feature selection, and applying ML concepts to real-world problems.

Arrow Technologies — Cloud Computing Intern | May 2023 – July 2023 | Nashik, Maharashtra
- Gained exposure to cloud computing concepts and IT infrastructure through practical internship training.

Python Developer Training – LMS Trainee Program
- Completed practical training in Python programming, OOP, data structures, file handling, exception handling, JSON, NumPy, Pandas, Flask, APIs, and database concepts.

EDUCATION

B.E. Electronics and Telecommunication Engineering — Savitribai Phule University (P.E.S. Modern College of Engineering), Pune | Expected July 2027

Diploma in Computer Engineering — Sir Dr. M.S. Gosavi Polytechnic, Nashik | Completed June 2024
Percentage:(84.17)

10th / SSC
Maharashtra State Board of Secondary and Higher Secondary Education,
Gramodhay Madhaymik Vidyalay Nashik, Maharashtra
Year of Passing: 2021
Percentage: 80.40%

CERTIFICATION

- Green Skills and Artificial Intelligence under Skills4Future Program
